FROM MY FRONT PORCH

# I CAN SEE THE MULTIVERSE 2

*"One photon. Thirty-seven dimensions. It sounds like science fiction, but it is a real, peer-reviewed achievement in quantum physics. Researchers have been able to create a single particle of light that exists in 37 simultaneous quantum dimensions, not in physical space but in quantum information states. Using GHZ entanglement to manipulate the color and phase of a photon, they entangled all 37 modes simultaneously. These modes represent hidden layers of information embedded in the photon,*

*allowing it to carry significantly more data than traditional light systems, and thus laying the theoretical foundation for further development of the primitive HFM (Harmonic Frequency Modulator) device."*
**- From a recent article in a peer review scientific magazine**

As the founder of the banned Palmdale branch of the Jesuits of Truth, I cannot deceive you by suggesting that I am in any way like my famous Uncle Albert, who devoted his entire life to

finding legal ways to immigrate to the lower levels (spheres) of the Multiverse.
Nor can I truthfully claim that, like my uncle, I have been given even a single day to visit the transit camps where the Multiverse processes all visitors seeking to travel or work in the lower levels (spheres) of the Multiverse.
My beloved Uncle Albert devoted much of his life to a

hopeless grail quest that took him to the most remote and secret corners of the planet.
He hoped to find a legal way to obtain an immigration visa to the Multiverse and overcome the universal "blacklisting" of all CIS Humans.
This blacklisting was the result of a little-known but tragic event when a large number of illegal CIS Human immigrants rose up in a violent riot in response to

the decision of the Multiverse Corporate Congress to ban all seasonal workers from the agriculture and hospitality industries.
The reasons for this decision is well documented in Multiverse History Books and details the numerous cases of illegal hiring by dubious employers who tried to circumvent the Multiverse Labor and Wage Laws, as well as other crimes committed by the

illegals such as mass identity theft and wire bank fraud.
I can confirm that I have a limited ability (viewing only) to see behind the great magnetic, harmonic membrane that protects the Multiverse from the CIS people residing on planet Earth.
I have repeatedly emphasized in my research and occasional white papers that importing consumer HFM devices from the

# I CAN SEE THE MULTIVERSE 2

Multiverse to Earth is highly illegal. It is considered a serious criminal offense, severely punished by both the Multiverse Department of Justice and the Multiverse Customs Bureau. For my legal safety, I note that the HFM consumer device I purchased on the Dark Web was shipped with its conventional advanced nanotechnology disabled or, in some cases, removed, so its possession is

entirely semi-legal.
In practice, this means that my device allows me to visually access a limited number of frequencies in the Multiverse. Because the advanced circuitry has been disabled, I cannot fine-tune my personal frequency levels to cross the magnetic membrane and physically visit any of the lower levels (spheres) of the Multiverse.
I was required to clarify this by

my economic "slave masters" down at the WWWG plantation and Print Shop so they could publish this collection after they bitterly complained about another visit from those nasty little nerd gangsters who claim to work for DARPO.
On my front porch, with my HFM device on, I have the opportunity to observe selected scenes from the Multiverse.
I hope you enjoy this journey!
